SAFETY DATA SHEET

ARBOSIL® LMS Buff

SECTION 1: Identification of the substance/mixture and of the company/ undertaking

1.1 Product identifier Product name

: ARBOSIL® LMS Buff

Product description Other means of identification : Sealants

: Not available.

1.2 Relevant identified uses of the substance or mixture and uses advised against

| Identified uses | |
|------------------------------|--------|
| Sealants | |
| Uses advised against | Reason |
| For professional users only. | - |

1.3 Details of the supplier of the safety data sheet

Adshead Ratcliffe & Co. Ltd. Derby Road, Belper Derbyshire. DE56 1WJ +44 (0)1773 826661 e-mail address of person responsible for this SDS

1.4 Emergency telephone number

National advisory body/Poison Centre

| Telephone number | National Poisons Information Service (NPIS) Tel: 0344 892 0111 (for healthcare professionals only) Website: http://www.npis.org/ Members of Public in England, Scotland and Wales can contact NHS 111/NHS 24 by dialling 111. In Northern Ireland contact your local GP. |
|------------------|--|
| <u>Supplier</u> | |

| Telephone number | : +44 (0)1773 826661 |
|------------------|------------------------------|
| | (Office hours: 8.30 - 17.00) |

SECTION 2: Hazards identification

| 2.1 Classification of the s | ubstance or mixture |
|---|------------------------|
| Product definition | : Mixture |
| Classification according Not classified. | <u>a to UK CLP/GHS</u> |

The product is not classified as hazardous according to UK CLP Regulation SI 2019/720 as amended. See Section 11 for more detailed information on health effects and symptoms.

| 2.2 Label elements | | | | | |
|--------------------------------|---|--------------------|-------------|------|--|
| Signal word | : No signal word. | | | | |
| Hazard statements | : No known significant effects or critical hazards. | | | | |
| Precautionary statements | | | | | |
| Prevention | : Not applicable. | | | | |
| Response | : Not applicable. | | | | |
| Date of issue/Date of revision | 31 January 2024 Date of previous issue | : 10 November 2023 | Version : 2 | 1/15 | |

| SECTION 2: Hazards | ic | lentification |
|---|----|---|
| Storage | 1 | Not applicable. |
| Disposal | 1 | Not applicable. |
| Supplemental label elements | : | Contains N-(3-(trimethoxysilyl)propyl)ethylenediamine. May produce an allergic reaction. Safety data sheet available on request. |
| Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles | : | Not applicable. |
| Special packaging requirem | en | t <u>s</u> |
| Containers to be fitted with child-resistant fastenings | : | Not applicable. |
| Tactile warning of danger | : | Not applicable. |
| 2.3 Other hazards | | |
| Product meets the criteria for PBT or vPvB according to Regulation (EC) No. 1907/2006, Annex XIII | : | This mixture does not contain any substances that are assessed to be a PBT or a vPvB. |
| Other hazards which do not result in classification | : | Curing process releases 2-pentanone oxime. 2-Pentanone oxime is classified as harmful if swallowed, causes serious eye irritation, may cause damage to blood/ spleen through prolonged/repeated exposure and is harmful to aquatic life with long lasting effects. Curing process may release a small amount of methanol which is irritating to mucous membranes and has skin drying and narcotic effects. |

| Product/ingredient name | Identifiers | % | Classification | Туре |
|---|---|-----------|---|---------|
| ∠ ímestone | EC: 215-279-6 CAS: 1317-65-3 | ≥25 - ≤50 | Not classified. | [2] |

| | | | above. | | |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

<u>Type</u>

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

Occupational exposure limits, if available, are listed in Section 8.

SECTION 4: First aid measures

4.1 Description of first aid measures

| 4.1 Description of mot and n | |
|------------------------------|--|
| Eye contact | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs. |
| Inhalation | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. |
| Skin contact | Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. |
| Ingestion | : Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. |

4.2 Most important symptoms and effects, both acute and delayed

| <u>Over-exposure signs/</u> | <u>symptoms</u> |
|-----------------------------|------------------------------------|
| Eye contact | : Slightly irritating to the eyes. |
| Inhalation | : No specific data. |
| Skin contact | : May cause skin sensitisation. |
| Ingestion | : No specific data. |

4.3 Indication of any immediate medical attention and special treatment needed

| Notes to physician | Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. Curing process releases 2-pentanone oxime. 2-Pentanone oxime is classified as harmful if swallowed, causes serious eye irritation and may cause damage to blood/ spleen through prolonged/repeated exposure. Curing process may release a small amount of methanol which is irritating to mucous membranes and has skin drying and narcotic effects. |
|---------------------|--|
| Specific treatments | : Antidote for methanol poisoning is ethanol. |

| Date of issue/Date of revision | 31 January 2024 Date of previous issu | : 10 November 2023 | Version : 2 | 3/15 |
|--------------------------------|---------------------------------------|--------------------|-------------|------|
|--------------------------------|---------------------------------------|--------------------|-------------|------|

SECTION 5: Firefighting measures

| 0 | | 5 |
|--|-----|---|
| 5.1 Extinguishing media | | |
| Suitable extinguishing media | : | Use an extinguishing agent suitable for the surrounding fire. |
| Unsuitable extinguishing media | : | None known. |
| 5.2 Special hazards arising fi | ron | n the substance or mixture |
| Hazards from the substance or mixture | : | No specific fire or explosion hazard. |
| Hazardous combustion products | : | Decomposition products may include the following materials: carbon dioxide carbon monoxide metal oxide/oxides |
| 5.3 Advice for firefighters | | |
| Special protective actions for fire-fighters | : | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| Special protective equipment for fire-fighters | : | Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. |

SECTION 6: Accidental release measures

| 6.1 Personal precautions, pro | teo | ctive equipment and emergency procedures |
|---------------------------------|-----|--|
| For non-emergency personnel | : | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment. |
| For emergency responders | : | If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". |
| 6.2 Environmental precautions | : | Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |
| 6.3 Methods and material for o | col | ntainment and cleaning up |
| Small spill | : | Move containers from spill area. Vacuum or sweep up material and place in a designated, labelled waste container. Dispose of via a licensed waste disposal contractor. |
| Large spill | • | Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Vacuum or sweep up material and place in a designated, labelled waste container. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |
| 6.4 Reference to other sections | : | See Section 1 for emergency contact information. See Section 8 for information on appropriate personal protective equipment. See Section 13 for additional waste treatment information. |

SECTION 7: Handling and storage

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

7.1 Precautions for safe handling

Protective measures
Advice on general occupational hygiene
Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

7.3 Specific end use(s)

Recommendations

: Not available.

Industrial sector specific : solutions

: Not available.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limits

| Product/ingredient name | Exposure limit values |
|---|--|
| Zimestone | EH40/2005 WELs (United Kingdom (UK), 1/2020). [calcium |
| | carbonate inhalable dust/respirable dust] |
| | TWA: 4 mg/m ³ 8 hours. Form: respirable dust |

| | TWA: 6 mg/m ³ 8 hours. Form: inhalable dust |
| itanium dioxide | EH40/2005 WELs (United Kingdom (UK), 1/2020). |
| | TWA: 4 mg/m ³ 8 hours. Form: respirable |
| | TWA: 10 mg/m ³ 8 hours. Form: total inhalable |
| Silane, dichlorodimethyl-, reaction products with | EH40/2005 WELs (United Kingdom (UK), 1/2020). |
| silica | TWA: 2.4 mg/m ³ 8 hours. Form: Respirable dust |
| | TWA: 6 mg/m ³ 8 hours. Form: inhalable dust |
| dioctyltin dilaurate | EH40/2005 WELs (United Kingdom (UK), 1/2020). [tin |
| | compounds, organic, except cyhexatin (ISO) as Sn] Absorbed |
| | through skin. |
| | STEL: 0.2 mg/m³, (as Sn) 15 minutes. |
| | TWA: 0.1 mg/m³, (as Sn) 8 hours. |
| oluene | EH40/2005 WELs (United Kingdom (UK), 1/2020). Absorbed |
| | through skin. |
| | STEL: 384 mg/m ³ 15 minutes. |
| | TWA: 191 mg/m ³ 8 hours. |
| | TWA: 50 ppm 8 hours. |
| | STEL: 100 ppm 15 minutes. |
| methanol | EH40/2005 WELs (United Kingdom (UK), 1/2020). Absorbed |
| | through skin. |
| | STEL: 333 mg/m ³ 15 minutes. |
| | |

SECTION 8: Exposure controls/personal protection

| STEL: 250 ppm 15 minutes. |
|-------------------------------------|
| TWA: 266 mg/m ³ 8 hours. |
| TWA: 200 ppm 8 hours. |
| |

Biological exposure indices

No exposure indices known.

Recommended monitoring procedures

: Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

8.2 Exposure controls

Appropriate engineering : Good general ventilation should be sufficient to control worker exposure to airborne controls contaminants. Individual protection measures **Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. : Safety eyewear complying with an approved standard should be used when a risk **Eye/face protection** assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields. **Skin protection** Hand protection : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. **Body protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. **Other skin protection** : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. V se appropriate respiratory protection if there is a risk of exceeding any exposure **Respiratory protection** 2 limits. Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Date of issue/Date of revision

7/15

SECTION 8: Exposure controls/personal protection

| Environmental exposure | : Emissions from ventilation or work process equipment should be checked to ensure |
|------------------------|--|
| controls | they comply with the requirements of environmental protection legislation. In some |
| | cases, fume scrubbers, filters or engineering modifications to the process equipment |
| | will be necessary to reduce emissions to acceptable levels. |

SECTION 9: Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

| Potential immediate effects | 1 | Not available. |
| Potential delayed effects | : | Not available. |
| Potential chronic health effe | ect | <u>5</u> |

SECTION 11: Toxicological information

| Conclusion/Summary General | Based on available data, the classification criteria are not met. Curing process releases 2-pentanone oxime. 2-Pentanone oxime is classified as harmful if swallowed, causes serious eye irritation and may cause damage to blood/ spleen through prolonged/repeated exposure. Curing process may release a small amount of methanol which is irritating to mucous membranes and has skin drying and narcotic effects. |
|---------------------------------|---|
| Carcinogenicity Mutagenicity | No known significant effects or critical hazards. No known significant effects or critical hazards. |
| Reproductive toxicity | : No known significant effects or critical hazards. |

Other information

: Not available.

SECTION 12: Ecological information

12.1 Toxicity

| Product/ingredient name | Result | Species | Exposure |
|-------------------------|--|--|----------|
| ailicon dioxide | Acute EC50 2.2 g/L Fresh water | Daphnia - Water flea <i>- Daphnia magna</i> - Neonate | 48 hours |
| | Chronic NOEC 12.5 mg/l Fresh water | Daphnia - Water flea - <i>Daphnia magna</i> - Neonate | 21 days |
| itanium dioxide | Acute LC50 3 mg/l Fresh water | Crustaceans - Water flea - <i>Ceriodaphnia dubia</i> - Neonate | 48 hours |
| | Acute LC50 6.5 mg/l Fresh water | Daphnia - Water flea - <i>Daphnia</i> <i>pulex</i> - Neonate | 48 hours |
| | Acute LC50 >1000000 μg/l Marine water | Fish - Mummichog - <i>Fundulus</i> <i>heteroclitus</i> | 96 hours |
| oluene | Acute EC50 >433 ppm Marine water | Algae - Diatom - Skeletonema costatum | 96 hours |
| | Acute EC50 11600 µg/l Fresh water | Crustaceans - Scud - <i>Gammarus pseudolimnaeus -</i> Adult | 48 hours |
| | Acute EC50 6000 μg/l Fresh water | Daphnia - Water flea - <i>Daphnia</i> <i>magna</i> - Juvenile (Fledgling, Hatchling, Weanling) | 48 hours |
| | Acute LC50 5500 μg/l Fresh water | Fish - Coho salmon,silver salmon - <i>Oncorhynchus kisutch</i> - Fry | 96 hours |
| | Chronic NOEC 1 mg/l Fresh water | Daphnia - Water flea - Daphnia magna | 21 days |
| nethanol | Acute EC50 16.912 mg/l Marine water | Algae - Green algae - Ulva pertusa | 96 hours |
| | Acute LC50 2500000 μg/l Marine water | Crustaceans - Common shrimp, sand shrimp - <i>Crangon crangon</i> - Adult | 48 hours |
| | Acute LC50 3289 mg/l Fresh water | Daphnia - Water flea - <i>Daphnia magna</i> - Neonate | 48 hours |
| | Acute LC50 290 mg/l Fresh water | Fish - Zebra danio - <i>Danio rerio</i> - Egg | 96 hours |
| | Chronic NOEC 9.96 mg/l Marine water | Algae - Green algae - <i>Ulva</i> pertusa | 96 hours |

Curing process releases 2-pentanone oxime. 2-Pentanone oxime is classified as harmful to aquatic life with long lasting effects.

12.2 Persistence and degradability

Conclusion/Summary

: Not available.

SECTION 12: Ecological information

| Product/ingredient name | Aquatic half-life | Photolysis | Biodegradability |
|---|-------------------|------------|------------------|
| Pentanone, 2,2',2"-[O,O', O"-(methylsilylidyne)trioxime] | - | | Not readily |
| toluene | - | - | Readily |

12.3 Bioaccumulative potential

| Product/ingredient name | LogPow | BCF | Potential |
|-------------------------|--------|------|-----------|
| dioctyltin dilaurate | - | <100 | Low |
| toluene | 2.73 | 90 | Low |
| methanol | -0.77 | <10 | Low |

12.4 Mobility in soil

| Soil/water partition | : Not available. |
|----------------------|------------------|
| coefficient (Koc) | |
| Mobility | : Not available. |

12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

12.6 Other adverse effects : No known significant effects or critical hazards.

SECTION 13: Disposal considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

13.1 Waste treatment methods

| io. i music i cuillent meth | |
|-----------------------------|---|
| Product | |
| Methods of disposal | : The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. |
| Hazardous waste | Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 2008/98/EC. |
| Packaging | |
| Methods of disposal | The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. |
| Special precautions | This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. |

SECTION 14: Transport information

| | ADR/RID | ADN | IMDG | IATA |
|------------------------------|----------------------|---------------------------|--------------------|-------------------|

```
14.6 Special precautions for user
```

: **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

 14.7 Transport in bulk
 : Not available.

 according to IMO
 instruments

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

UK (GB)/REACH

Annex XIV - List of substances subject to authorisation

Annex XIV

None of the components are listed.

Substances of very high concern

None of the components are listed.

Ozone depleting substances

Not listed.

Prior Informed Consent (PIC)

Not listed.

Persistent Organic Pollutants

Not listed.

Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles

| Product/ingredient name | % | Designation [Usage] |
|-------------------------|------|---------------------|
| ørioctyltin dilaurate | <0.1 | 20 |
| toluene | ≤0.1 | 48 |
| methanol | <0.1 | 69 |

Labelling: Not applicable.

Seveso Directive

This product is not controlled under the Seveso Directive.

EU regulations

| Industrial emissions (integrated pollution prevention and control) - Air | : Not listed |
|---|--------------|
| Industrial emissions (integrated pollution prevention and control) - Water | : Not listed |
| International regulations | |

SECTION 15: Regulatory information

Chemical Weapon Convention List Schedules I, II & III Chemicals Not listed.

Montreal Protocol

Not listed.

Stockholm Convention on Persistent Organic Pollutants Not listed.

Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

UNECE Aarhus Protocol on POPs and Heavy Metals

Not listed.

SECTION 16: Other information

| H225 | Highly flammable liquid and vapour. |
|-------|--|
| H301 | Toxic if swallowed. |
| H302 | Harmful if swallowed. |
| H304 | May be fatal if swallowed and enters airways. |
| H311 | Toxic in contact with skin. |
| H315 | Causes skin irritation. |
| H319 | Causes serious eye irritation. |
| H331 | Toxic if inhaled. |
| H336 | May cause drowsiness or dizziness. |
| H360D | May damage the unborn child. |
| H361d | Suspected of damaging the unborn child. |
| H370 | Causes damage to organs. |
| H372 | Causes damage to organs through prolonged or repeated exposure. |
| H373 | May cause damage to organs through prolonged or repeated exposure. |
| H412 | Harmful to aquatic life with long lasting effects. |
